

Southern Rock Licks (Guitar Tricks 168) - Neal Walter

There is a lot of great ways to use this embellishment. It's really handy especially if you are playing major sounding chords or southern rock style guitar.

If you're into blues rock or chicken fried rock, this is a must-have lick to add to your arsenal. It's very easy and comfortable, and you can move it anywhere on the neck. You'll hear artists like Slash, Rolling Stones and Lynyrd Skynyrd use this handy lick often. Dive on in!

The cool thing about these licks is that they are totally moveable as long as you mute/play the strings correctly.

You know this is in the D Position because it is pulled out of this D Barr Chord shape you bar the B, G and D strings at the 7th fret with your index finger and mute the A string with the end of your index finger and the E string with your thumb - all you get is the chord and none of the lower strings.
