Key D:

D, Em, G, A

Key E:

E, F#m, A, B

Key F:

F, Gm, A#, C

Key G:

G, Am, C, D

Guitar Lesson Overview

Today we are going to learn a guitar chord progression that sounds great. The chord diagrams are built into the video, and don't they sound sweet? I love these voicing. The names of the chords may sound advanced, but it's really easy to play chords, since it's mostly a matter of sliding your left hand up the neck, and only moving a finger here and there.

Practice this with a metronome, and make sure you play steady 8th notes throughout the progression.
